Subject: Keep Uber in SC!!

Uber has been a great source of transportation and I trust the drivers much more than local cabs!! Before Uber you dealt with horrible smelling cabs, unreliable drivers, and often questioning if it was safe to get into a cab. As for uber, they actually do background checks on drivers and have better insurance. It is nice with modern technology to know how close a ride is, reliable drivers that are safe and on time.

Uber is a great source for rides from the airport. It has been great for visitors to get around. As much as Greenville is in the news for a place to visit, it's nice visitors can be picked up by a nice, reliable driver and a clean car!!!

As for downtown greenville, local business owners will probably see less late night alcohol sales since people will not have a reliable source to drive them home or a scarier thought that there will be more drunk drivers out on the road again...

Uber has been an efficient and beneficial business ...shame on SC for siding with the unreliable business.

Please keep Uber in South Carolina!

To the PSC: Dont be bullied by a dinosaur limo and taxi industry. Those of us who consume their services are happy to have Uber as a viable and safe alternative. Please do not discourage reasonable competition in this market by disallowing Uber in this state.

RR Richards
Uber User

I live in an area that barely has any taxi service. Uber will open up options to many people all over the state that otherwise do not have driving options.
